

Small Group Counseling

Often, students who share a common concern find it helpful to meet to share ideas and gather support in a group setting. These groups (compromised of 2 or more students) meet twice a month over a 4-month period and focus on such topics as: anger management, divorce, self-esteem, social skill building, friendship, anxiety, school success or grief and loss. Our school is working to support students under the MSAT™ (Minority Student Achievement Team) model. Students do not have to be an ethnic minority to participate as the program has proven success for all students.

The goal is to provide kids with the support they need to be successful on their own. Your input is greatly appreciated as we evaluate the level of progress students are making both at home and in school. MSAT™ allows Dr. Adolph Brown & colleagues to work with students who need some assistance to be successful during their school day.

In order to participate, students must have a signed permission form from their parent(s) or guardian. By signing below, you give your permission for your child to work with the MSAT™.

Student's Name: _____

Parent/Guardian Name (PRINT): _____

Parent's signature: _____ Date: _____

Best phone number: _____ Email: _____
